

LEONARDO CALDERON J.

*Software Developer
Project Manager
STEM Teacher*

PROFILE

Software developer with experience as a project manager to a wide range of businesses onsite and remotely.

The main interest is in high-level language applications with a focus on future development in data science and machine learning.

CAREER GOALS

To be a business-oriented software developer, an important part of key projects for a company.

To use my skills as a specialist, consultant, or teacher to improve teams, processes, and business.
